

Accelerate Your Collections Litigation Strategy.

Increase Profitability of Your Litigation Strategy With End-to-End Oversight and Control.

Your litigation strategy needs to produce more revenue at a lower cost with rigorous compliance. As consumer credit grows at an annual rate of 5%, the delinquency rate for loans and credit cards is also increasing.

Collections litigation has proven to be an effective debt recovery strategy, but litigation comes with its challenges. This highly fragmented process requires compliance with complex legal and regulatory requirements which frequently change.

Oliver Collections Litigation Exchange (CLX) platform gives you unprecedented visibility into an automated litigation process with built-in federal, state, local, and venue-specific laws, rules and procedures.

By consolidating and orchestrating the repetitive regulatory and legal process on our SaaS-based platform, you will accelerate the litigation process, increase revenue, and maintain rigorous compliance.

Increased Revenue

Increase revenue by efficiently scaling legal filings through orchestration of expensive, repetitive manual tasks.

- Increases efficiency of employees by 4-5 times
- Reduces cycle time by 80%
- Eliminates 95% of errors and re-work caused by manual processes.

Rigorous Compliance

Automate compliance by codifying federal, state, local, venue and customer-specific laws, rules and procedures.

- Automatically incorporates current laws and regulations into workflows and documentation
- Configures to your Standard Operating Procedures
- Audits every action by every party

Simplified Litigation

Drive collaboration, communication and oversight by securely consolidating the litigation process for all parties.

- Provides visibility of the entire litigation process across all parties
- Automates assembly and redaction of documentation
- Drives efficiency by identifying choke points and increasing effectiveness

#

Optimize your Collections Litigation Strategy for Maximum ROI

If you want to start, expand, or accelerate a collections litigation strategy, Oliver CLX is a platform that increases compliant collections throughout the legal strategy. Compliant collections follow a series of interdependent processes, each with its own pace and components. Oliver's product vision is driven by the interconnected processes of Consolidate, Orchestrate and Litigate.

#

Consolidate

Centralizes Data

The collections process begins with the internal challenge of bringing together all of the necessary data and documentation. You need a solution that not only consolidates your data, but automatically cleans, updates and repurposes the data. Oliver CLX provides a centralized, secure repository for all supporting materials, enabling authorized pre-placement, legal, collection, and finance personnel to work more efficiently.

- Data Centric Approach
- Content Vendor Hub
- Security
- Litigation Master Record

Orchestrate

Automates Collaboration

The operational rigor demanded for fair collections is daunting, and the risks are enormous. You need a solution with all federal, state, local, and venue-specific laws and procedures built into the

#

platform. Oliver CLX orchestrates the entire collections litigation process – from pre-placement to satisfaction – ensuring that your collections are compliant, efficient and cost effective.

- Modern Automation
- Compliance Framework
- Secure Collaboration
- Servicer Exchange

Litigate

Accelerates Litigation

Managing the litigation process from notice to judgement to settlement is essential to a good outcome for both the creditor and consumer. You need a solution that allows you to monitor progress and control the outcome. Oliver CLX provides complete oversight of the process ensuring that litigation is efficient, compliant and effective.

- End-To-End Visibility
- Standard Operating Procedures
- Standardized Audit
- Secure Multi-Firm Management

Oliver.
